Bauanleitung

(Diese Seite nicht mit in das Buch einbinden!)

Seiten auf A4 Papier drucken, Druckeinstellung eine Seite oder zwei Seiten je Blatt.

Seiten an der grauen Umrisslinie beschneiden, laminieren.

Seiten am oberen Rand zur Bindung passend lochen.

Seiten an der eingezeichneten Mittellinie teilen (außer Deckblatt und letzte Seite).

Beim Binden die linken Seitenhälften in der vorgegebenen Reihenfolge belassen, die Reihenfolge der rechten Seitenhälften jedoch variieren, denn diese Hälften sollen ja erst durch Blättern gesucht und gefunden werden.
