

# Faltbücher

Faltbücher sind aus nur einem einseitig bedruckten Blatt Papier einfach herstellbar.

Drucken Sie zunächst die gewünschte Seite aus.

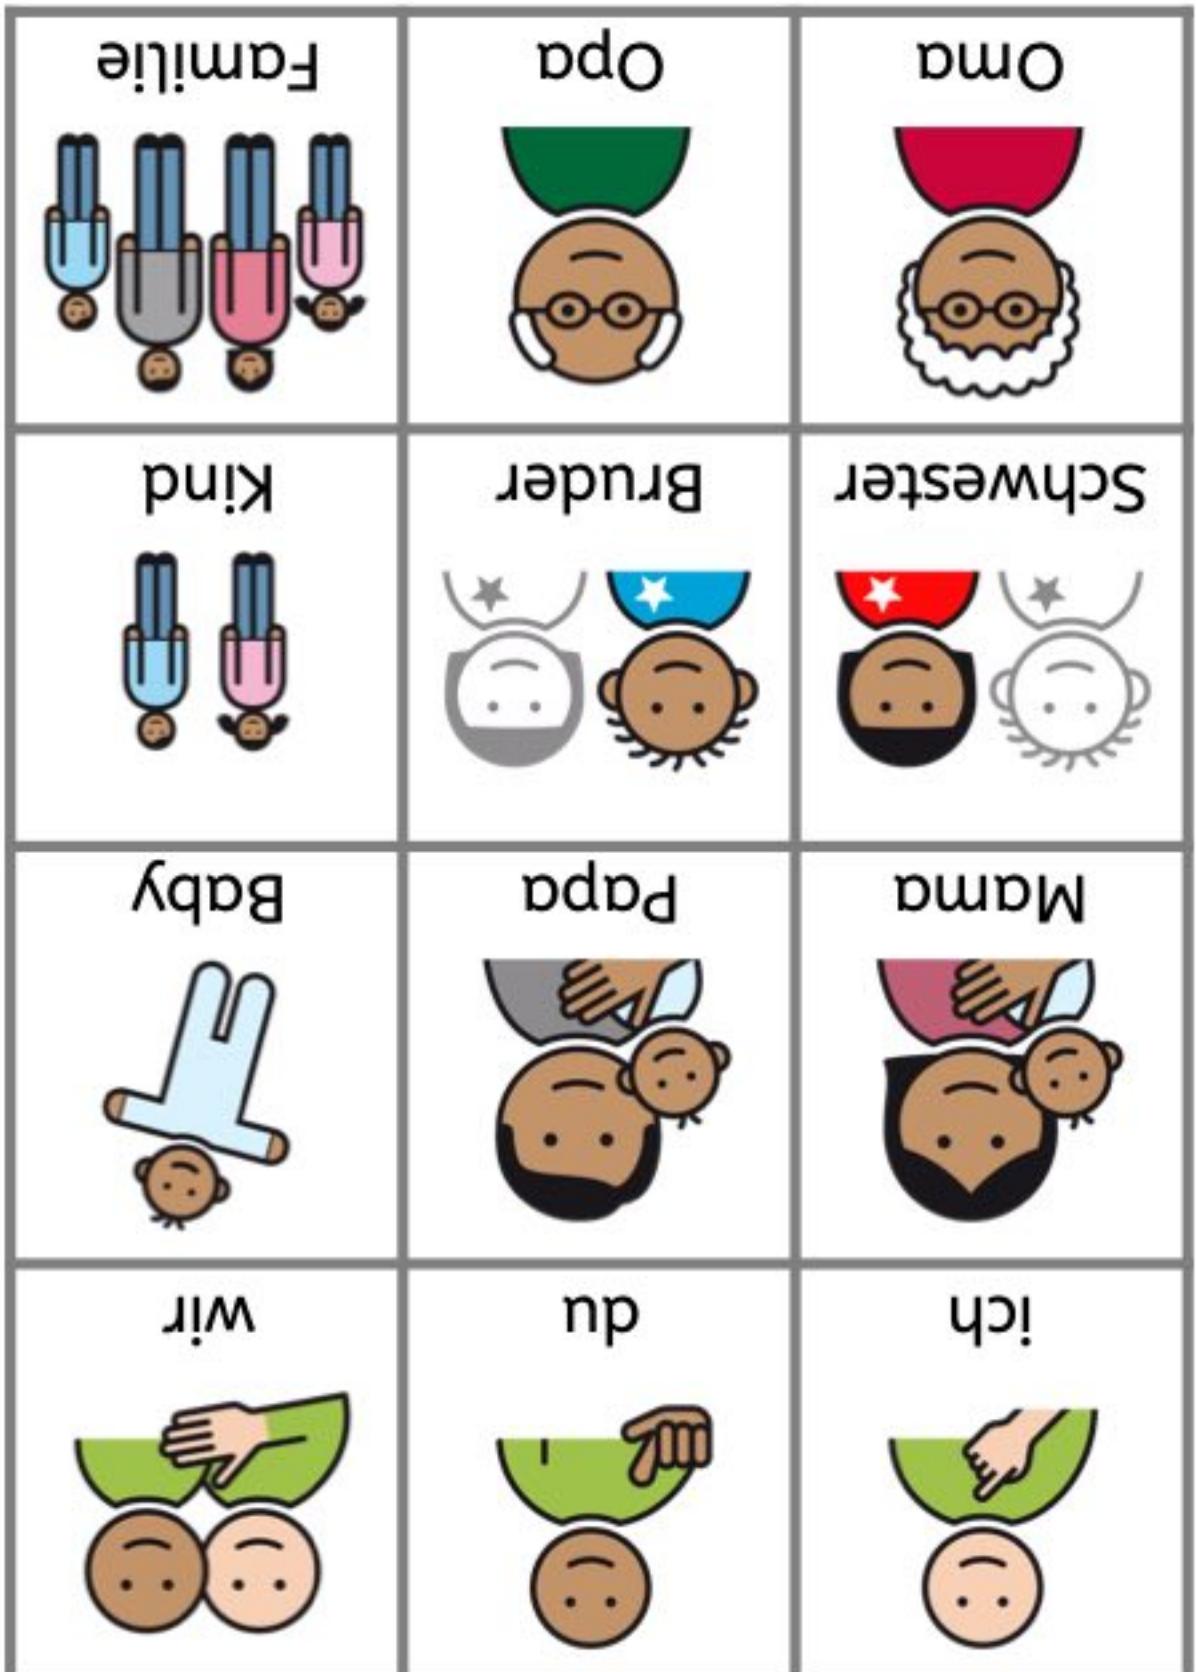

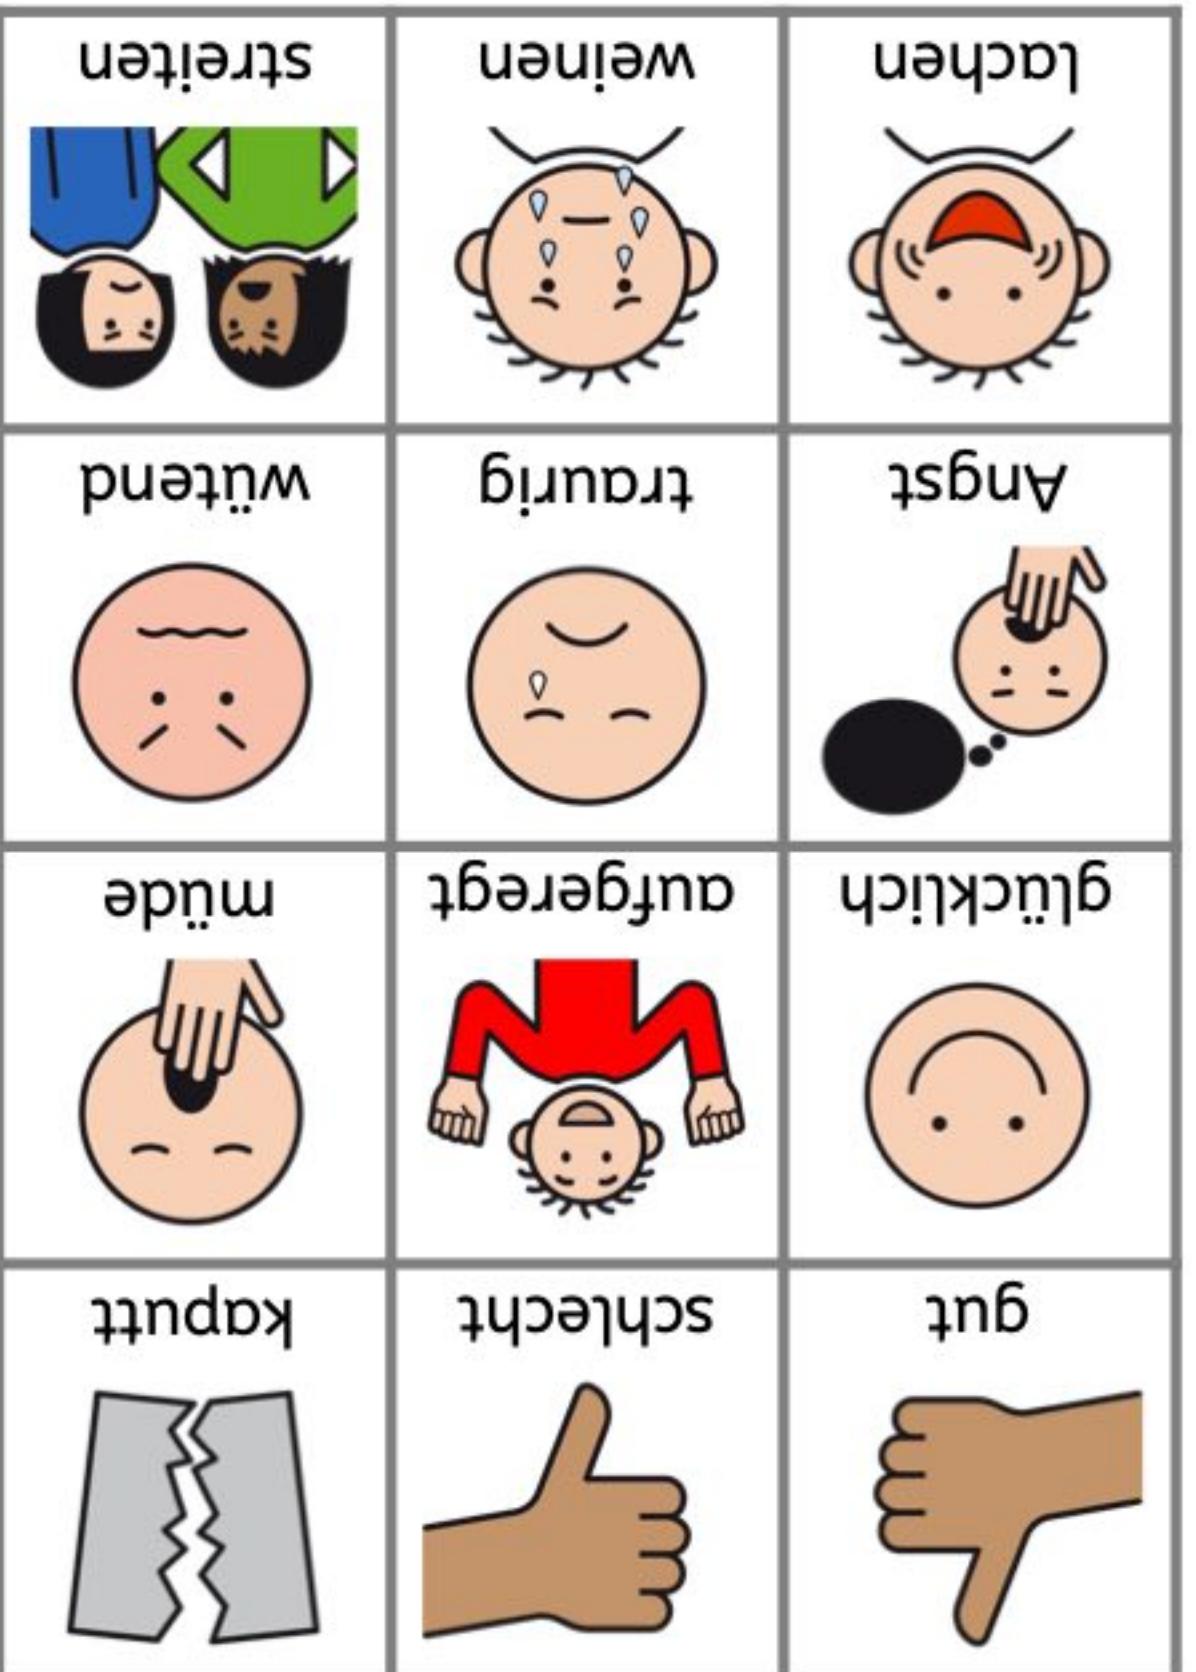

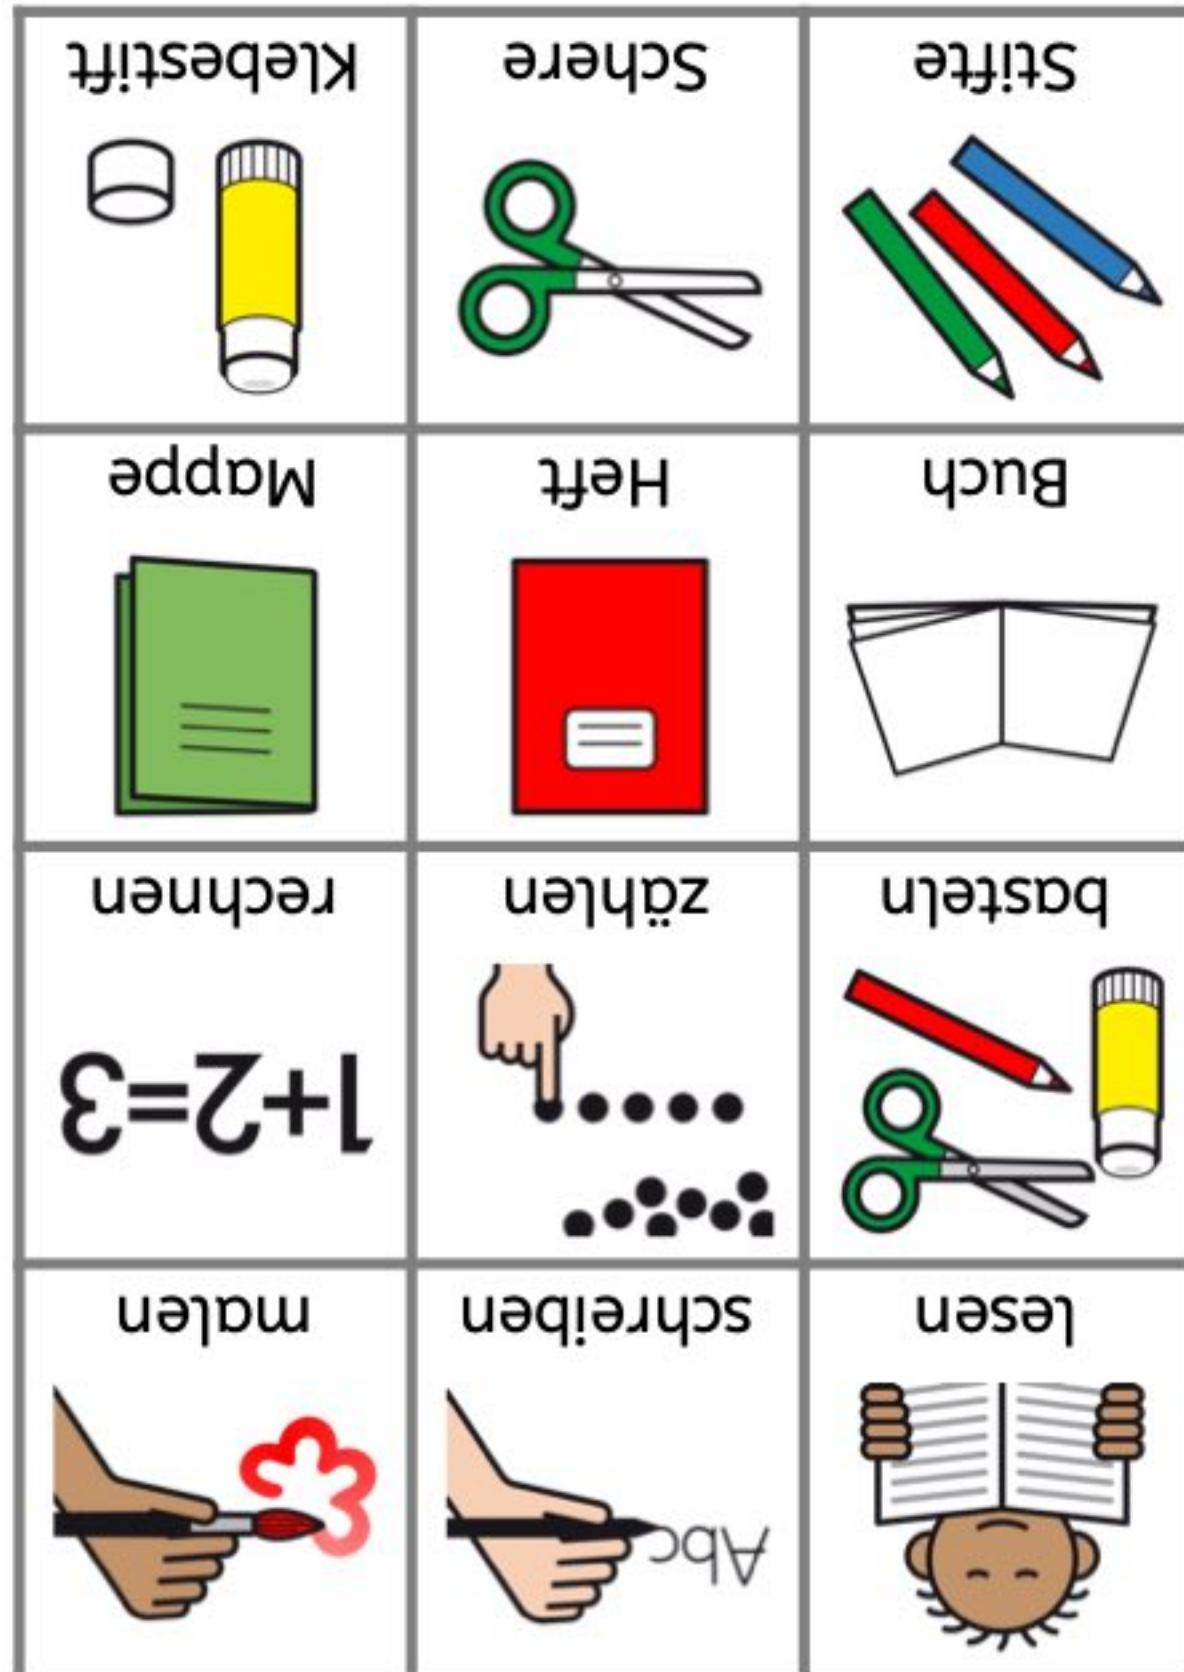

Damit alles genau passt, muss der Blattrand entlang der Linie abgeschnitten werden.

Anschließend wird das Blatt mehrfach gefaltet und in der Mitte entlang der Linie eingeschnitten.

Nun kann es zu einem Buch zusammengelegt werden.

Da Faltbücher sehr beliebt sind, findet man im Internet (Suchbegriffe: Faltbücher, Minibücher u.a.) viele Bild- und Videoanleitungen.

Vielen Dank an alle, die eine Übersetzung beigesteuert haben!
