## Herstellung

Das Buch muss nicht zwingend alle Seiten/Reime enthalten. Die benötigten Seiten ausdrucken.

Es können auch Reime (je zwei Seiten) weggelassen werden. Ebenso kann die Reihenfolge der Reime anders festgelegt werden.

Die Seiten mit Mutter und Butter sollten aber der Anfang und die Seiten mit Jochen und Knochen das Ende des Buches sein.

### Variante OHNE Kletten

Seiten 1-36 (bzw. die benötigten Seiten) ausdrucken.

Alle 36 Seiten laminieren.

Alle 36 Seiten um den farbigen Rahmen herum ausschneiden.

Alle 36 Seiten lochen und binden.

### Variante MIT Kletten

Seiten 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35 sowie Seiten 37-54 ausdrucken, laminieren und um den farbigen Rahmen herum ausschneiden.

Diese Seiten lochen und binden.

Die Seiten 37-54 bei der Markierung mit weichem Klett versehen.

Seiten 55-59 ausdrucken, laminieren und in einzelne Karten schneiden.

Die einzelnen Karten auf der Rückseite mit Haken-Klett versehen.

Die Karten auf einer Klett-Unterlage (z. B. Teppichfliese) bereithalten.

Diese werden nach und nach in das Buch geklettet.

Passe für die **österreichische Version** in MetaTalkDE folgende Tasten/Wörter an:

Aprikose - Marille, Johannisbeere - Ribisel, Mais - Kukuruz, Möhre - Karotte, Tomate - Paradeiser.

Wie das geht, kannst du dir im Lifetool-Video von Romana Malzer erklären lassen: <https://www.youtube.com/watch?v=qj6Qhfe45LQ>

**Viel Spaß beim Lesen und Reimen!**
